Nutrition sits at the very heart of our business

Together with Annabel Karmel, we recognise the key role good food and healthy diets plays in a child's life-long development. What they eat now will shape their future preferences.

Our nutrient-based standards for our nursery menus have been designed by Annabel, our experienced chefs, and food technologists around the Eat Better, Start Better Guidance.

We pride ourselves in ensuring that every child, no matter what their requirement, receives the correct meal to support their needs.

Show that you are leading the way in nutritional excellence

For parents and carers, what children eat when in your care is really important to them. Your setting is perfectly placed to relieve those anxieties by promoting your first-class menus curated by Annabel Karmel, one of the most trusted names in children's food.

When you start your partnership with us, you will have access to a dedicated marketing toolkit which enables you to download and print a range of useful Annabel Karmel branded marketing materials, including flyers, branded menus, photography, recipe cards, and more.

Let's make food a key selling point for your nursery. You could even plan an open day for current and prospective families to sample your new menus!
